IT PROJECT MANAGER / PMO LEADER

15+ Years of Experience | Cybersecurity, Cloud Security & Enterprise Infrastructure Delivery

PROFESSIONAL SUMMARY Results-driven IT Project Manager with 15+ years of technical leadership experience driving complex enterprise IT, cloud security, and cybersecurity initiatives for Fortune 500 organizations. Proven track record of managing full project lifecycles, cross-functional global teams, multi-million dollar scope, and complex risk portfolios. Expert across Agile, Waterfall, and Hybrid methodologies with deep technical proficiency in Azure, Microsoft Purview, ServiceNow, Jira, and ITIL governance frameworks.

CORE COMPETENCIES

- Project & PMO Governance: Project Lifecycle Management, Scope & Schedule Control, RAID Logs, Budget & Resource Allocation, Change Management, Steering Committees, Executive Reporting
- Methodologies & Frameworks: Agile, Scrum Ceremonies, Waterfall, Hybrid, Sprint Planning, Continuous Improvement, ITIL Best Practices, ISO 9001
- Cloud & Cybersecurity: Cloud Migration, Enterprise Information Protection, Data Loss Prevention (DLP), Incident Response, HIPAA & PII Compliance, Security Governance
- Tools & Platforms: Microsoft Project, Jira, ServiceNow, Microsoft Azure, Microsoft Purview, SharePoint, Google Workspace

PROFESSIONAL EXPERIENCE

ABACUS GROUP, LLC | September 2025 – Present

Incident Response Project Manager | IT Project Manager | Project Manager

- Lead end-to-end delivery of enterprise IT infrastructure, cloud migration, cybersecurity, and incident response projects, ensuring alignment with client objectives, project scope, budgets, and timelines.
- Manage multiple concurrent client engagements, coordinating cross-functional teams of engineers, technical specialists, vendors, and business stakeholders to deliver successful project outcomes.
- Oversee complex technology initiatives, including Microsoft 365 deployments, Azure cloud solutions, network infrastructure upgrades, firewall replacements, data migrations, and security assessments.Develop and maintain project plans, milestones, workstreams, resource allocations, risk registers, and project budgets while proactively addressing dependencies and potential delays.

HOWARD STONE

Irving, TX | (682) 365-8959 | hbstone@gmail.com | LinkedIn | GitHub | Merit Page

- Serve as the primary point of contact for clients, facilitating project kickoff meetings, technical discussions, executive status updates, and stakeholder communications throughout the project lifecycle.
- Monitor project financials, resource utilization, and allocated engineering hours while managing scope changes, change orders, and deliverable expectations.
- Coordinate incident response and remediation activities, working with technical teams to prioritize critical issues, minimize business disruption, and restore operational stability.
- Utilize project management and service delivery platforms to track project progress, manage deliverables, escalate risks, and provide accurate reporting to internal leadership and client stakeholders.

SECURONIX | February 2021 – December 2022

Project Manager | Application Security Engineer

- Managed a portfolio of concurrent application security and enterprise IT projects utilizing Agile and Scrum methodologies.
- Built and structured a dedicated Quality Assurance department from the ground up, resulting in a 60% reduction in post-deployment incident escalations.
- Developed Standard Operating Procedures (SOPs) and key performance indicators (KPIs) that boosted customer satisfaction (CSAT) scores by 75%.
- Partnered with engineering and compliance stakeholders to enforce HIPAA and PII data controls, strengthening compliance metrics by 20% within 90 days**.**

MICROSOFT | September 2019 – December 2020

Project Manager | Cloud Security Engineer

- Spearheaded complex enterprise cloud security, migration, and Microsoft Purview information protection deployments for Fortune 500 enterprise customers.
- Managed a high-volume portfolio of 15 concurrent project tracks using Agile and Hybrid delivery models while maintaining scope, budget, and timeline adherence.
- Facilitated requirements gathering and architectural reviews with business and technical stakeholders to align cloud security controls with business outcomes.

GTS TECHNOLOGY SOLUTIONS | July 2018 – July 2019

IT Project Manager | Desktop Support Manager

HOWARD STONE

Irving, TX | (682) 365-8959 | hbstone@gmail.com | LinkedIn | GitHub | Merit Page

- Led enterprise hardware refresh, malware remediation, and infrastructure modernization initiatives supporting the City of Dallas.
- Directed a 25-person technical service delivery team, consistently meeting strict municipal SLA benchmarks and quality standards.
- Implemented ITIL and ISO 9001 standards to streamline operational workflows and eliminate project delivery bottlenecks.

DXC TECHNOLOGY | January 2010 – May 2018

Level 2 Manager | Service Desk Manager | Project Manager

- Led global software deployments, infrastructure upgrades, and operational change initiatives across international enterprise environments.
- Managed over 60 technical professionals supporting global enterprise operations, driving SLA compliance and continuous service improvement.
- Designed end-to-end ServiceNow onboarding workflows and served as functional SME for enterprise incident management protocols.

EDUCATION & ACADEMIC HONORS
